The goal of this tutorial is to provide a walk-through on how to activate your copy of OPCOM. If you have any questions or feedback, please reply below in the comment section. In order to activate your copy of OPCOM, please follow these steps: Step 1: Access the My OPCOM tab and enter the Activation Code provided by Opcom. The activation code can be found in your email when it arrives in your inbox with instructions for activating your software installation. (It should be something like "OPCOM Activation Code Keygen 2595") \tStep 2: Once you've entered the activation code in Step 1, click on "Register License". \tStep 3: You will be prompted to enter your email address. Please make sure that the email address you use is correct, since it will be used throughout the process. \tStep 4: After entering your email address, you will receive an activation success page. This means that your license file has been successfully generated and can now be used in OPCOM. Enjoy! NOTE: If for any reason, you cannot find the activation code in your email, please contact Opcom support at info@opcominc. com. They will help you with your activation.
