The authors examined the effect of the CYP2C19 genotype on the relationship between dose reduction and antidepressant response in patients treated with mirtazapine for depression. Data from 2041 depressed outpatients were pooled from 9 previously published studies, with 5,389 mirtazapine treatment episodes. The authors used a mixed-model approach to examine the relationship between dose reduction and response. Patients with the CYP2C19*2/*2 genotype were less likely to have a reduction in mirtazapine dose, compared with patients with CYP2C19*1/*1 ($p = 0.026$) or CYP2C19*1/*3 ($p = 0.027$) genotypes. Furthermore, patients with the CYP2C19*2/*2 genotype were less likely to have a dose reduction that resulted in an improvement in response, compared with patients with the CYP2C19*1/*1 genotype ($p < 0.05$): AJAX and javascript: how to limit the response to the page? i want to use an AJAX / jQuery script to get
