

. . . Add sound, video and other multimedia to PDF documents. Automatically send files to your preferred email address, workgroup or dropbox folder. Open and edit PDF files without the need for a separate PDF editor.

**AutoFillInSearch** - Adobe Acrobat XI Pro has been enhanced to automatically search and auto-fill search criteria in the Search panel. Simply enter search criteria in the search box and hit Enter to search for PDF documents. Select one of the search criteria from the list and hit Enter to search for the documents that match the criteria. The search results are displayed in the panel. You can even preview the first few search results to see if you like the search results.

**PDF Metadata:** You can add multiple PDF metadata tags to a PDF document. For example, you can add a title, author and other metadata tags to a PDF document and add a description, keywords and other metadata tags. Metadata tags are added using the Metadata panel. You can create a new metadata tag or edit an existing metadata tag.

**Find PDFs:** Easily find PDF documents that contain a particular word or phrase. This feature is very useful for searching for a specific document. For example, you can search for the word "Accounting" in the PDF documents and get the list of all the PDF documents that contain the word "Accounting".

**Duplicate PDF Files:** You can duplicate PDF files using the Duplicate PDF Files tool. The tool allows you to duplicate a selected PDF document. You can also copy the properties of the original PDF document to the duplicated PDF document.

**Manage PDFs in One Window:** Easily manage all your PDF files in one window. With the help of the PDF Library, you can search for a specific file, display the file details and open the PDF document. You can even select multiple files and open all the selected PDF files in the same window.

**PDF Indexing:** PDF Indexing allows you to create an index of all the words in the PDF documents. For example, you can create an index of the words "Accounting" and "2017". You can then use the PDF Indexing tool to search for the words "Accounting" and "2017".

**PDF Markup:** You can add annotations, notes and stamps to PDF documents using the PDF Markup tool. For example, you can add a note to a PDF document. The note can be typed or imported from another document. You can even select
