Ministry of Labour, Industry and Skills (MoLIS) has launched a new employment program that helps unemployed and seasonal workers to get job training and be placed in workplaces. "Recruiting the unemployed and seasonal workers and connecting them with jobs that are currently available helps in reducing the waiting time and give them a hand to get job training." said Mr. Zulkifli Mohamad, Minister of Labour, Industry and Skills (MoLIS). An awareness and recruitment drive was held in the Minister's office, attended by Mr. Zulkifli Mohamad, and the MoLIS Deputy Minister, Seri Maharani Maimunah Mohd Sharif, along with other MoLIS officers and top managers from the Community Employment Department (CED). Held in conjunction with the celebration of International Womens Day, this recruitment drive aims to promote the new Employment program and skill training services which is now available to all unemployed and seasonal workers. To further encourage more unemployed and seasonal workers to sign up for the program, CED will be offering a series of skill training and placement assistance to those who sign up. This recruitment drive is part of the MoLIS's initiative to upgrade the services offered to the community and to improve its living conditions. The MoLIS is now offering free of charge skill training assistance to the unemployed and seasonal workers. The skill training assistance can be obtained at any one of the CED's office in Shah Alam, Petaling Jaya, Ipoh, Kluang, Cheras and JB Sq in Petaling Jaya. What is "The Iconic Share"? This is an innovative, integrated service that helps content creators increase their social media presence by giving them their own custom brand icon that can be used in their social media profiles as well as their videos, games, websites, widgets, etc. Why do we need to be an "

What's New In JXCirrusDiary?

JXCirrusDiary is an application that targets a wide variety of organizational needs, from calendar appointments to to-do lists, and even note-taking or journal writing. Setting up alarms, planning your tasks, and keeping your schedule tight Tons of programs and software solutions offer either calendar organization functions or note-taking features. As a consequence, it is pretty difficult to try and make the best choice when it comes to your needs. JXCirrusDiary offers you a bunch of time tracking and work scheduling. Moreover, everything you store inside this tool will be saved in your profile. Later, you can import or export your data for easy backup and retrieval. Moreover, you can analyze database schemas, set up work hours, (re)configure the details of the owner's profile, such as name, start and end date. Additionally, when tracking a task, you can set up stopwatches, share your data and synchronize it into the cloud, or generate Google Drive automatic backups. An even cooler function is the one that allows adjusting the tool's settings to take and store snapshots. Configuring the new tasks, your preference options, prioritizing entries With JXCirrusDiary, you can add new tasks and subordinate those into individual entries that keep children elements underneath them. At the same time, every time you submit a new entry, you can directly design its role to make it a child or a sibling task. For different entry types, you can add URLs, scripts, notes, tags, make master tasks that are initiate like individual sessions, order and prioritize certain elements you submitted, check real-time task completion, insert complex planning schemes, and seamlessly switch between personal and business requirements. Conclusion To summarize, this application is perfect for anyone who wishes to create a super organized schedule and at the same time, a digital vault.
