Blacksheep - Never get caught with secret info again! Ever wanted to know what all those people are doing on your computer when you aren't there? Well, in just a few simple steps you can solve that problem and keep whatever is discovered inside your computer secret! Blacksheep is a free portable software application which allows you to view files, view what other people are doing on your computer, or to erase any data just before a hacker gets ahold of it. Blacksheep works like this: You first have to launch the applet. Then you go to the 'Settings' of the app, and select your options. Once you've made your selections, you can go to the direction in which you want to view files, and just one click of a mouse will allow you to view the files in the selected direction. The directions may be chosen as 'Monitor', 'Desk', 'SysLog', 'Network', 'Directory' or 'Folder'. Note: Choose the right direction, if you are looking to prevent others from being able to view what they are doing on your computer! Once you've
