TNSR DCTK is a folder recovery solution. It can recover deleted files from your NTFS partition (e.g. C, D, E, F...) and FAT partition (e.g. A, B, C...). NTFS partition recovery is not only for C: or D: drive, but also supports E: drive, even after Windows had deleted files from E: drive. NTShare Photo Recovery is the easiest way to recover files from various types of storage media. For example, it can recover from USB memory, digital camera, digital media, mp3 players, external hard disk, hard disk and optical disk, etc. This software is very user-friendly, which enables you to recover your files without any technical knowledge of disk formatting. For example, you do not need to format the drive to recover data. All you need is to connect the file source to your computer, and this software will do the rest. NTShare Photo Recovery Features: -It can recover files from various types of external storage media. -Support FAT partition as well as NTFS partition. -Support NTFS, FAT, PE, UDF, exFAT, VHD, ISO, VMDK, VHDX, DVD, CD and even USB drives. -Support all versions of Windows including Windows XP, Vista, 7, 8, 8.1 and 10. -User-friendly interface, only three options are needed to recover your files, It easy to learn to operate. -Under the "Save path", you can customize the destination location to store recovered files. -Auto backup before recovery, the program will backup all the files before deleting the recovered files. -Auto recovery after deletion, the program will recover the deleted file within 15 minutes. -Support saving on multiple drives simultaneously. -Guarantee to recover 100% files. System Requirements: -Pentium IV or greater processor -For operating system Windows XP, Vista, 7, 8, 8.1, 10 -For the other operating system, please download the setup file first and run the setup file to install the software, it only contains a few files not the entire software -The software requires at least 1GB free disk space to store the recovered files, but you may need more space if the files are very large -The program runs on almost all 32-bit and 64-bit Windows operating systems, 09e8f5149f

## What's New in the?

All-New Windows Explorer Up to 9 times faster than previous file search and navigation! Find Files Faster, Easier With your new all-new Windows Explorer, finding files is as easy as you can get. Just press and hold Ctrl and hit your Windows key and you're off. You'll be able to view more than ever before, from anywhere, even with a Windows 8 or Windows 10 PC. Search Faster with Metadata Not only can you search for files faster, but you can now search for files based on the metadata stored with them in Windows. You can find out more about this in the Search Help section. Cascading Views Want to see only the hidden files, the downloads, the desktop files or the documents in this view, just choose which one you want to see from the menu. Want to see the files in another directory than the Documents view? Hit the Set Viewing Options button. Improved Viewing Options The file browser now has several viewing options, including the ability to filter out duplicate items and make files hidden. You can also choose whether to view or hide the sizes of the files. Quick Jump Bar Windows Explorer has improved navigation! With the addition of a Quick Jump Bar, you can quickly navigate to folders, files or devices. Search box A search box has been added to the top right of the window. A search history now lives in your app and so you can use that instead of having to manually clear the search history.
